Course Objectives – Objectifs du cours :

This course focuses on project management methodology: how to initiate and lead projects in the most effective way. Students will learn about key project management phases and will have the opportunity to apply this to a case study, which will be used as a connected thread during all the modules. Participants will be able to identify the necessary skills and behavior a project manager needs to succeed. Upon completion of the course, the learners should be able to:

- Explain what a project is, what project management is and the different associated processes
- Use, in a suitable way, tools and methods in the initiating and planning processes for a project

Prerequisites – Pré requis :

Not any specific skills required

Practical information about the sessions – Modalités pratiques de gestion du cours :

Attendance: All students must be active participants in class activities. An active presence may be shown through participation in, and contributions to discussions. Regular attendance and assignment submissions are essential for success.

Grading system – Modalités d'évaluation :

- 25% : Attendance and participation - active contribution during lessons
- 25% : Quiz – final test on basics
- 50% : Assignment (group or personal) : project plan to be delivered

Bibliography/references – Bibliographie/références :

PMI, a Guide to the Project Management Body of Knowledge PMBok, 6th edition Other references provided during the course

Session planning – Planification des séances

This planning could be adapted to fit with specific needs from students.

- Course 1 : Introduction & course presentation
