Please send an email if you'd like to set up an appointment with one of the instructors.

Course Objectives - Objectifs du cours :

The course intends to provide students with general principles of industry regulation and expose them to market regulation in network industries. It deals more specifically with regulation in the postal sector and electricity markets. The lectures will be based on academic papers as well as real-world regulatory practices.

Prerequisites - Pré requis :

M1-level microeconomics and industrial organization.

Basic knowledge of competition law and economics

Grading system - Modalités d'évaluation :

Grading will be based on assignments and/or a final exam. More details will be provided during the first session.

Bibliography/references - Bibliographie/références :

References will be provided in class

Session planning - Planification des séances :

Part 1: General Principles of Industry Regulation (Helmuth Cremer)

Part 2: Regulation of the postal sector (Helmuth Cremer)

Part 3: Regulation of electricity markets (Frédéric Marty)

Part 4: Enforcement of EU competition laws in electricity markets and current regulatory challenges
(Frédéric Marty)

Distance learning – Enseignement à distance :

In presence class.
